Winter 2018

A message from the Mayor: Flood Update/Curbside Recycling

- The City of Arcadia and Trempealeau County have applied for a Community Development Block Grant through the Emergency Assistance Program for assistance from the State of Wisconsin. The grant is intended to assist low to moderate income home owners and tenants affected by the 2017 flooding.

  CouleeCap and Western Dairyland will be administering the grant and repairs. If you were affected by the 2017 flooding in Arcadia, please contact CouleeCap at 608-796-9062 and reference Arcadia Flooding 2017."

- Due to increased costs and declining utilization, effective January 1, 2018, the City will end curbside recycling pickup. You may continue to take your recycling to the Recycling Center at: 1420 E Wanek Avenue

  Monday – Thursday: 1:00 - 4:30 PM

  Saturdays: 8:00 AM – Noon

  If you would like to continue curbside pickup you may contract individually with Hilltoppers Refuse & Recycling Services, Inc. by calling 608-783-6727 Ext. 109 or email: heather.fischer@hilltopperrefuse.com

Un mensaje del alcalde: Los Datos Sobre las Inundaciones/ Recogido de Reciclaje

- La ciudad de Arcadia y el condado de Trempealeau han solicitado para una beca "Community Development Block Grant" a través del Programa de Asistencia en Emergencias del estado de Wisconsin. Esa beca es para asistir los dueños de bajos a moderados ingresos afectados por la inundación de 2017.

  CouleeCap y Western Dairyland serán las encargadas de gestionar la beca y las reparaciones. Si usted estaba afectado por la inundación de 2017 en la ciudad de Arcadia por favor llama Coulee Cap 608-796-9062 y mencionar el inundación de Arcadia de 2017.

- Debido al aumento de los costos y la declinación de su uso, efectivo a partir del 1ro de enero del 2018, la ciudad no va a continuar recogiendo las bolsas de reciclajes. Todavía pueden llevar sus reciclajes al centro de reciclaje: 1420 E Wanek Avenue

  Lunes - Jueves: 1:00 - 4:30 PM

  Sábados: 8:00 AM – Noon

  Si quisiera pagar una compañía para recoger sus cosas reciclaje, puede contactar la cuidad 608-323-3359 ext. 32 y nos ayudarán abrir su cuenta con Hilltoppers Refuse & Recycling Services, Inc.

-Rob Reichwein

Snow Removal If you have a fire hydrant on your property please remove snow from around it. This will save valuable time in case of an emergency.

Move vehicles off of the roadways to allow the City to clear the streets as efficiently as possible and save you time shoveling your vehicle out. Failure to remove your vehicle may result in a fine. ($10 plus fee for towing) Do not place snow onto city streets or other people's properties. It is the responsibility of the property owner to have snow removed from their property.

Safety first! Kyle installed a new ladder hook to keep us safe in the Powerhouse.

Thank you Dawn for keeping the Powerhouse spotless!

City of Arcadia Water Utility

Don't Let Cold Weather Catch You Unprepared

As we all know, our winters can get pretty frigid here in West Central Wisconsin. Freezing weather can cause serious damage to your interior water system including your pipes and water meter if your pipes should burst or crack. The damage to structures, pipes and water meters from freezing can be very expensive to repair and are the owner's responsibility.

Homeowners, renters, landlords and business owners are encouraged to make sure that areas of the buildings where water pipes and meters are located are protected from the cold and properly heated (keep your thermostat set to at least 50 degrees or higher). Vacant properties need more attention during the winter months and should be checked regularly.

For more information including winter tips to help prevent frozen pipes, please visit our Website @ www.cityofarcadiawi.com and search Cold Weather & Your Internal Water Systems. Please contact the Arcadia Water Utility Department for any concerns of winterization of buildings or to report vacant buildings during the winter months at 608-323-3452.

No deje que el Clima Frío lo Capture sin Preparación

Con la llegada del frío, la Utilidad de Agua de Arcadia está urgiéndole a casas, apartamentos y dueños de negocios de proteger sus sistemas internos de agua contra la posibilidad de congelación.

Los propietarios y ocupantes deben asegurarse que las áreas de los edificios donde se encuentran las tuberías de agua y metros están protegidas de los fríos y estén bien climatizadas.

Además de las molestias, el daño de congelación a las estructuras, tuberías y metros pueden ser muy costosos de reparar y son responsabilidad del propietario.

También cualquier edificio desocupado debe ser revisados con regularidad para asegurarse de que la calefacción este mantenida para evitar la congelación si el sistema de agua no ha sido apagado y drenado. Póngase en contacto con el Departamento de Utilidad de Agua de Arcadia para cualquier pregunta sobre el acondicionamiento para el invierno de edificios en 608-323-3452.
